LentiFuge™ Viral Concentration Reagent
Cat.# LFVC1

LentiFuge™ Viral Concentration Reagent

Shipment Contents: LentiFuge™ Viral Concentration Reagent
— Store at -20°C

Description:

The LentiFuge™ Viral Concentration Reagent provides a simple, rapid, and effective method to increase the amount of lentiviral particles collected from cell culture supernatants using standard high-speed centrifugation. LentiFuge is provided as a sterile, cell culture grade reagent that is non-toxic to target cells. Lentiviral vectors concentrated using LentiFuge contain significantly less culture medium serum contaminants than those concentrated using polyethylene glycol (PEG)-based reagents, and hence can be resuspended in a much smaller volume. In addition, LentiFuge only requires a 1-hour incubation at 4°C as opposed to lengthy overnight incubations required by PEG reagents. LentiFuge is provided as a 1000X solution.

The amount of reagents provided in this kit is sufficient to concentrate virus from 1 liter of viral supernatant.

Biosafety Level: BSL-2 (when used with lentiviral particles)

Storage: -20°C

Shelf Life: 2 years from date of receipt

Shipping Conditions: Blue Ice

Product Information (Cellecta Website):

User Manual, PAC: <https://www.cellecta.com/product-manuals-and-certificates/>

Components:

Catalog #	Contents	Lot #	Quantity	Storage
LFVC1	LentiFuge™ Viral Concentration Reagent (1000X) in sterile PBS	17092701	1 ml × 1 vial	-20°C

Quality Control

Contamination-Free: Each lot of LentiFuge is tested for bacterial contamination.

Mycoplasma: Each lot of LentiFuge is certified to be mycoplasma-free, as determined by RT-PCR.

Terms and Conditions

Cellecta, Inc. Limited License

Cellecta grants the end user (the "Recipient") of the LentiFuge™ Viral Concentration Reagent (the "Product") a non-transferable, non-exclusive license to use the reagents for internal research use only as described in the enclosed protocols; in particular, research use only excludes and without limitation, resale, repackaging, or use for the making or selling of any commercial product or service without the written approval of Cellecta, Inc. -- separate licenses are available for non-research use or applications. The Product is not to be used for human diagnostics or included/used in any drug intended for human use. Care and attention should be exercised in handling the Product by following appropriate research laboratory practices.

Cellecta's liability is expressly limited to replacement of Product or a refund limited to the actual purchase price. Cellecta's liability does not extend to any damages arising from use or improper use of the Product, or losses associated with the use of additional materials or reagents. This limited warranty is the sole and exclusive warranty. Cellecta does not provide any other warranties of any kind, expressed or implied, including the merchantability or fitness of the Product for a particular purpose. Use of the Product for any use other than described expressly herein may be covered by patents or subject to rights other than those mentioned. Cellecta disclaims any and all responsibility for injury or damage that may be caused by the failure of the Recipient or any other person to use the Product in accordance with the terms and conditions outlined herein.

The Recipient may refuse these licenses by returning the enclosed Product unused. By keeping or using the enclosed Product, you agree to be bound by the terms of these licenses. The laws of the State of California shall govern the interpretation and enforcement of the terms of these Licenses.

Terms and Conditions are also available online at <https://www.cellecta.com/company/legal-information/terms-and-conditions/>.
